

LOUISIANA

Park Operational Base Summary: The table below shows the annual park operating base for all parks within this state. Park operational base funds are supplemented by as yet undetermined amounts of project funding from regional or servicewide-managed programs, such as cyclic maintenance, the Natural Resources Preservation Program, and the Drug Enforcement Program.

If a park is in more than one state, the park is included in each of the appropriate state tables. The full operating base is shown; no attempt has been made to split the park operating base amount between two or more states.

(dollars in thousands)					
Congress'l District Park Units/Trails/Affiliated Areas	FY 2003	FY 2004	FY 2005	FY 2005	FY 2005
	Enacted	Enacted	Uncontrol Changes	Program Changes	Estimate
04,06 Cane River Creole NHP	695	695	0	0	695
01,02,03,06,07 Jean Lafitte NHP & Preserve	4,672	4,819	0	-175	4,644
02 New Orleans Jazz NHP	534	532	0	0	532

FY 2005 uncontrollable funding related to pay and benefits has yet to be distributed at the park level.

This table does not include programs from other appropriations such as General Management Plans, Land Acquisition, Line Item Construction, Federal Lands Highway Program, and Historic Preservation Fund State Grants. Information on the distribution of funds in these programs is outlined on the next page. There are separate sections on General Management Plans and the Trails Management Program.

Project Identification

Project Title: Stabilize and Preserve Magnolia Plantation Structures		
Project No: 060184	Unit/Facility Name: Cane River Creole National Historical Park	
Region: Southeast	Congressional District: 04	State: Louisiana

Project Justification

Project Description: This project will stabilize, preserve, and rehabilitate five historic structures for visitor access at the Magnolia Plantation unit of Cane River Creole National Historical Park. The five historic structures are the Overseer's House/Slave Hospital, the Blacksmith Shop, the Pigeonnier, Carriage Shed, and the Gin Barn/Screw Press. Basic stabilization and preservation treatments for these structures will include correcting structural deficiencies, repairing and restoring missing or detached architectural elements, repairing weather damage, arresting rodent and insect infestation and repairing resulting damage, and painting or whitewashing. Rehabilitation treatments for the structures will provide electricity, lightning protection, new foundations, and ADA-compliant access. A sixth structure, a modern tractor shed, will be recorded, dismantled and removed.

Project Need/Benefit: Cane River Creole National Historical Park is a recent addition to the National Park System. The park includes two nationally significant plantations, significant in part because of the large number of remaining outbuildings, which is highly unusual. Enslaved people built most of these vernacular Creole structures prior to the Civil War. Nearly all have undergone physical adaptations to accommodate changes in use over time, but most are within the period of significance. In accordance with the approved General Management Plan/Environmental Impact Statement, the treatments in this project will preserve prior to the Civil War Creole structures, the primary park resources, and will also make the structures accessible thus enhancing the visitor experience as part of the interpretive and educational programs at the park.

Ranking Categories: Identify the percent of the project that is in the following categories of need.

25 % Critical Health or Safety Deferred Maintenance	0 % Critical Mission Deferred Maintenance
10 % Critical Health or Safety Capital Improvement	20 % Compliance & Other Deferred Maintenance
30 % Critical Resource Protection Deferred Maintenance	0 % Other Capital Improvement
15 % Critical Resource Protection Capital Improvement
